

# Midterm Assignment

[Home Page](#)

My wireframes+designs offer more functional views than the current Craigslist. It has a login on the home page and condenses most of the content under general categories. There is a chat box added that allows Craigslist users to interact with one another via chat.

# Wireframes

## Home View

The wireframe illustrates the layout of the Craigslist homepage. At the top left is a large button labeled "New York City". To its right is a placeholder for a logo. Further right is a login area with fields for "Username" and "Password" and a "Log In" button. Below the logo is a search bar with the placeholder "Search Craigslist".

The main content area is divided into several sections:

- Today's Events**: A box containing placeholder text: "Lorem ipsum dolor sit amet, consectetur adipiscing elit." and "Nullam sed quam quis lacus posuere suscipit sit amet ut purus." It also includes a link "See all...".
- Event Calendar**: A calendar for April 2008 showing dates from 30 to 30.
- Community**: A vertical stack of categories: Discussion Forums, For Sale, Gigs, Housing, Jobs, Resumes, Personals, Services, and Events.
- For Sale**: A detailed view of the "For Sale" category, showing a chat interface with messages like "hi", "hello", "looking for...", "selling...", and "buying...". It also includes a placeholder text message and a "Send" button.
- Miscellaneous**: A box containing the category "Miscellaneous".

At the bottom of the page is a copyright notice: "© 2015 craigslist".
